Re: Cranston, RI Feasibility Study

bfm  
Dear Colonel Miller:

Thank you for your letter of January 15, 1993, regarding the Cranston, RI Wastewater Management Feasibility Study.

Mr. Gerald C. Potamis of our Water Management Division will continue to be the main point of contact for this project. You are also encouraged to contact Mr. Richard Boynton, Chief of the RI Superfund Section directly on all matters dealing with Superfund. I believe that Ms. Barbara Blumeris, the Corps project manager, has already contacted Mr. Boynton to set up the meeting requested in your letter.

In addition, I recommend that you contact Ms. Alice Goode, Chief of Water Resources, RI Department of Environmental Management (DEM). The State of Rhode Island has been delegated responsibility by EPA for the National Pollutant Discharge Elimination System Permit Program and the Federal Industrial Pretreatment Program. In addition, the State of Rhode Island has primary responsibility for administering funding under the Construction Grants and State Revolving Fund Programs of the Clean Water Act. Therefore, RIDEM would be the primary permitting agency for the regional connector system being studied.

Sincerely,

*Paul Keough*

Paul G. Keough  
Acting Regional Administrator

cc: Louise Durfee, Director, RIDEM  
Alicia Goode, RIDEM
